Synopsis

This workshop will be conducted by an IEM Fellow Member cum experienced Professional Interviewer Ir. PMr. Dr. Mui Kai Yin. He is an IEM Senior Mentor who received 5 times IEM Top Mentors Award. He was an IEM Council Member, a member of the IEM Standing Committee of Examinations and Qualifications (E&Q), Admission and Practical Training (APT), Activities (ACT), Professional Practices (PPC), Finance, Welfare and Member Services (WEL), Professional Interview Board (PIB).

The objective of conducting this workshop is in line with the requirement by the IEM Professional Interview Board that all existing Interviewers are required to attend the Refresher Course on Outcome-Based Professional Interview process every 3 years. Apart from this, we also encourage and welcome more IEM Corporate Members and Fellows to train and certify as Interviewers.

The training and certification workshop gives an improved and updated version of the existing Professional Interview (IEM PI 2.0) in that it assesses competency based on evidence (outcome-based); and uses marking rubrics to minimize subjectivity in assessment. The revised process is closely referenced to the United Kingdom Standards for Professional Engineering Competence (UK-SPEC) for Chartered Engineers (CEng).

This 1-Day training and certification workshop will cover the following learning modules.

Module 1: Introduction
Module 2: PI Competency Standard
Module 3: Rubrics - Descriptor / Interpretation
Module 4: PI Report and Rules
Module 5: Application Document
Module 6: Professional Interview
Module 7: Workshop Summary
